APPLICATION

Support for independent Station Charging Operators and Charging Services Providers.

Enelion Software offers right tools for you to
provide high service level to your customers.
Division of duties makes the system appealing
for chargers operators as well as charging service
providers.

Software as a Service or self hosted Software ready to use in minutes.

Minimal configuration needed to start using this
great tool. Want to have full control over your data?
Buy license for self hosting.

Building complex business models at the electromobility market

When you are a user of System you do not have to
worry about anything what is connected with the
electromobility market. We will help you build your
own business, advising you what conditions must be
implemented for the Operator to install a charging
station and which way Charging Developer may define
fares and account payments.

ENELION GLOBAL CHARGING SYSTEM FUNCTIONS

	ENERGETICS	LOCAL GOVERNMENTS	BUILDING MANAGEMENT	FLEET	CAR DEALERSHIP	INDEPENDENT CHARGING SERVICES PROVIDER
STATION OPERATOR						
▶ **Team management** — You don't have to take care of your charging station in person. Specify team accounts with different permissions only to perform specific tasks.	●	●	●	●	●	
▶ **Operator** — System Enelink offers the possibility of divide your network of chargers. Smaller groups can be assigned to subdivisions of your company to manage them.	●	●		●	●	
▶ **Charging station management** — You can check the status of your charging station. Thanks to the connection to the Enelink system, most of the service will be done remotely.	●	●	●	●	●	
▶ **Smart charging** — Do you want to install more charging points without increasing the grid power? All you have to do is set a charging plan that will limit the station's power in a timely manner.	●	●	●	●	●	
▶ **Labeling** — Use labels to freely mark the stations. This intuitive system allows for easy management of groups of chargers. With few click make dozens of chargers available for selected customers.	●	●	●	●	●	
PROVIDER SERVICES	●	●	●	●	●	●
