

INFORMATION ABOUT COOKIES

1. DOES ENELION PARTNER PORTAL USE COOKIES?

When accessing the Enelion Partner Portal via the portal.enelion.com website in your browser, the website can collect information about users using cookies, which involves installing such files on your device (computer, smartphone, etc.).

2. WHAT ARE COOKIES USED FOR?

Cookies are used to remember user decisions (selected font, contrast, given consent), maintain user sessions (e.g. after logging in), remember passwords (with consent) and to collect information about the user's device and visit for security purposes, but also to analyse visits and adapt content.

3. DO COOKIES ALLOW ENELION TO IDENTIFY THE USER?

Information obtained through cookies is not combined with other data of Enelion Partner Portal users, nor is it used by Enelion to identify users.

4. ARE COOKIES USED BY ENELION FOR MARKETING PURPOSES?

Enelion does not use cookies for marketing purposes.

5. HOW TO MANAGE COOKIES?

5.1. Deleting cookies from your device

All cookies can be deleted from your device - simply clear your browser history. This deletes all cookies from all sites visited.

However, please note that saved information (e.g. saved login data, page preferences) can thus be lost.

5.2. Managing cookies from specific sites

For more information on managing cookies from specific sites, please refer to the privacy and cookie settings of chosen browser.

5.3. Disabling cookies

With most web browsers, you can stop cookies from being installed on your device, but this means that you may have to set your preferences anew each time you visit the website. Some services and functions may not work properly (e.g. account login).

The user can also access websites in the so-called incognito mode, which prevents the collection of data about their visit.
